

Bad Seeds: Evaluating Lexical Methods for Bias Measurement

ACL Paper:
bit.ly/362DI9h

Maria Antoniak and David Mimno

Common Seed Sources

Borrowed from Social Science • Crowd-Sourced
Population-Derived • Adapted from Lexical Resources
Corpus-Derived • Curated • Re-Used

Factors Affecting Stability

- Definitional Factors
- Lexical Factors
- Set Factors

Trace the origins of your seed sets

Examine seed features and compare disjoint seed sets

Document all seeds for transparency and accessibility
